NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

1 BASIS OF PREPARATION

This condensed consolidated interim financial information for the six months ended 30 September 2017 has been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34, "Interim financial reporting". The condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 March 2017, which have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs").

1.1 Changes in accounting policies and disclosures

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 March 2017, as described in those annual financial statements.

The Group has adopted the following new and revised HKASs for the first time for the current period's condensed consolidated interim financial information.

Annual Improvements Project Annual Improvements 2014-2016 Cycle

(Amendments) – HKFRS 12

HKAS 7 (Amendments) Disclosure Initiative

HKAS 12 (Amendments) Recognition of Deferred Tax Assets for Unrealised Losses

The adoption of the above new and amended HKASs does not have any significant impact on the Group's results and financial position nor any substantial change in the Group's accounting policies, and presentation of condensed consolidated interim financial information.

2 SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has four reportable segments as follows:

- (a) the merchandise segment engages in the marketing and distribution of photographic developing, processing and printing products and the sale of photographic merchandises, skincare products, consumer electronic products and household appliances;
- (b) the service segment engages in the provision of technical services for photographic developing and processing products, professional audio-visual advisory and custom design and installation services;
- (c) the investment segment comprises the Group's business in investment properties; and
- (d) the corporate and other segment comprises the Group's corporate income and expense items and other investment businesses.

The chief operating decision maker of the Group has been identified as the Board of Directors. The Board of Directors monitors the results of its operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/(loss), which is a measure of adjusted profit/(loss) before tax. The adjusted profit/(loss) before tax is measured consistently with the Group's profit/(loss) before tax except that interest income and share of results of an associate are excluded for such measurement.

The following table presents revenue and profit/(loss) of the Group's segments for the six months ended 30 September 2017 and 2016.
